SUMMARY

AI evaluator and technical generalist with hands-on experience assessing text, image, audio, and video model outputs for accuracy, completeness, and instruction adherence. Earned a **92/100 QA dimension score across 63 reviewed submissions**, exceeding the project target by 22 points. Combines rubric-based evaluation and analytical writing with an IT and cybersecurity foundation, seven years of entrepreneurship, and practical experience building local-first technical tools.

CORE SKILLS

AI Evaluation: Multimodal Model Evaluation, Prompt Development, Rubric Application, Response Ranking, Quality Assurance, Instruction-Following Analysis, Evidence-Based Rationales

Technical: Python, JavaScript, Git/GitHub, Local-First Systems, Security Scanning, SARIF, SBOM, Chrome Extensions, Nmap, Wireshark, Hardware and Software Support

AI-Assisted Development: Codex, Claude Code, ChatGPT, Genspark, Perplexity/Comet; rapid prototyping, debugging, documentation, and structured verification

Domain Experience: Entrepreneurship, E-commerce, Personal Investing and Equity Research, Luxury Retail, Digital Advertising, Customer Acquisition, IT Support and Cybersecurity

EXPERIENCE

AI Evaluator | [Handshake AI](#) Nov 2025 - Present | Remote

- Earned a **92/100 QA dimension score across 63 reviewed submissions**, exceeding the project target by 22 points.
- Evaluate AI-generated text, image, audio, and video outputs for instruction adherence, accuracy, completeness, and overall response quality.
- Translate complex task requirements into structured prompts, apply detailed rubrics consistently, and provide concise, evidence-based rationales.
- Compare competing model responses for accuracy, relevance, clarity, completeness, and adherence to user intent while adapting to evolving guidance.

Founder & Chief Executive Officer | [Jesse Spitzer Clothing](#) Mar 2018 - Sep 2025 | Remote

- Built and operated a direct-to-consumer menswear brand spanning product positioning, e-commerce, digital advertising, editorial content, and customer engagement.
- Achieved **120% year-over-year online traffic growth** through targeted campaigns and grew the brand to more than 10,000 social followers.
- Trained and managed a small team while coordinating sales, marketing, merchandising, and day-to-day operations.

Sales Associate | [Ridglea Watch & Jewelry](#) Dec 2016 - Jan 2018 | Fort Worth, TX

- Delivered high-touch consultative sales across luxury watch, jewelry, and gift categories, representing Rolex, Montblanc, and Pandora.
- Generated repeat and referral business through relationship building, proactive outreach, and attentive follow-through.

Technical Support Specialist | [Ann Gibson Insurance](#) May 2009 - Nov 2015 | Keller, TX

- Improved business efficiency and security through cloud migration, cybersecurity training, hardware and software installation, troubleshooting, and stakeholder support.

SELECTED TECHNICAL PROJECTS

Vulcanary | [Local-First Code Defense](#) 2026 | Public GitHub Repository

Finds vulnerabilities, evaluates remediation paths in isolated Git worktrees, and turns verified repairs into reviewable commits while keeping source code under the operator's control.

- Combines multi-repository monitoring, dependency and source scanning, guarded remediation, GitHub Actions policy enforcement, and normalized JSON, SARIF, CycloneDX, and SPDX reporting.
- Produces tamper-evident verification receipts and fails closed when security rescans or configured project checks do not pass.

Stack: Python, Git automation, application security, OSV, SARIF, SBOM | [github.com/JesseS69/vulcanary](#)

CabinScout | [Premium-Cabin Fare Monitoring](#) 2026 | Private Prototype

Monitors selected routes from DFW, compares current premium-cabin fares with matching historical observations, and flags opportunities for human review before booking.

Stack: Python, SQLite, scheduled monitoring, automated reporting, source verification

WorkProof | [Privacy-First Chrome Extension](#) 2026 | Public GitHub Repository

Separates elapsed, focused, and recently active time, then compares the independent local record with platform-reported totals without uploading sensitive activity data.

Stack: JavaScript, Chrome Extension APIs, local-first storage | [github.com/JesseS69/workproof](#)

ADDITIONAL DOMAIN EXPERIENCE

Independent Investor | [Self-Directed](#) Jun 2014 - Present | Fort Worth, TX

- Build and manage a long-term portfolio of individual equities, index ETFs, and real estate securities, with several core positions held since 2014-2015.
- Apply company and market research, long-term investment theses, conviction-based position sizing, and dividend reinvestment to guide decisions.

EDUCATION

Bachelor of Science in Information Technology | Western Governors University | Jul 2015

A.A.S. in Information Security Technologies | Tarrant County College | May 2012

CERTIFICATIONS

Model Validation 2 - Expert | Handshake | Dec 2025

CompTIA Project+ | Active; previously certified: CompTIA Network+ and CompTIA Security+
